Santhera Successfully Places CHF 60 million Senior Convertible Bonds

Liestal, Switzerland, February 10, 2017 – Santhera Pharmaceuticals (SIX: SANN) announces the successful placement of CHF 60 million senior unsecured convertible bonds due 2022.

Santhera has successfully placed CHF 60 million senior unsecured convertible bonds (the "Convertible Bonds") due 2022. The Company intends to use the net proceeds from this placement primarily to fund the commercialization of Raxone[®] in the currently approved indication, to prepare the market entry and commercial launch in subsequent indications, for investment into further clinical trials with Raxone and for other corporate purposes.

The Convertible Bonds have a 5-year maturity and a coupon of 5.00% per annum. The Conversion Price was fixed at CHF 86.4006, representing a premium of 20% over the volume weighted average price (VWAP) of the shares between the launch and pricing of the Convertible Bonds (the "Reference Share Price"). The Convertible Bonds are issued at 100% of their principal amount and, unless previously redeemed, converted or repurchased and cancelled, will mature on February 17, 2022, at 100% of their principal amount.

The Conversion Price will be reset after the first year if the VWAP of the shares during a specified period of time will be below the Reference Share Price. The new Conversion Price must not be lower than 75% of the Conversion Price at issuance. In addition, Santhera may call the Convertible Bonds at any time on or after the second anniversary of the issue date at par, plus accrued interest, if any, if the VWAP of the shares is at least 160% of the Conversion Price.

The Convertible Bonds will be convertible into 694,440 registered shares of Santhera Pharmaceuticals Holding AG, representing 11.1% of the current outstanding share capital of Santhera Pharmaceuticals Holding AG. The shares to be delivered upon conversion shall be sourced from conditional and, if needed, from authorized capital.

"The high demand from domestic and international investors is yet another sign of confidence in Santhera's potential and outlook. Proceeds from this latest financing enhance our financial flexibility in executing our development, regulatory and commercial activities as planned," said **Christoph Rentsch**, Chief Financial Officer of Santhera.

Application will be made for the Convertible Bonds to be admitted for listing and trading on the SIX Swiss Exchange, with provisional trading expected to start on or around February 16, 2017. Payment and settlement of the Convertible Bonds is expected to be on or around February 17, 2017.

Santhera agreed to a company lock-up ending 90 days after that date, subject to customary exceptions.

Bank am Bellevue and Kepler Cheuvreux acted as Joint Bookrunners on the Convertible Bond offering.

About Santhera

Santhera Pharmaceuticals (SIX: SANN) is a Swiss specialty pharmaceutical company focused on the development and commercialization of innovative pharmaceutical products for the treatment of orphan mitochondrial and neuromuscular diseases. Santhera's lead product Raxone is authorized in the European Union, Norway, Iceland and Liechtenstein for the treatment of Leber's hereditary optic neuropathy (LHON). For Duchenne muscular dystrophy (DMD), the second indication for Raxone, Santhera has filed a Marketing Authorization Application (MAA) in the European Union and Switzerland. In collaboration with the US National Institute of Neurological Disorders and Stroke (NINDS) Santhera is developing Raxone in a third indication, primary progressive multiple sclerosis (PPMS), and omigapil for congenital muscular dystrophy (CMD), all areas of high unmet medical need.
