

## Pictorial Guide to Santhera at Hammerstrasse 49 in Liestal

Driving from Basel, Zurich or Bern/Luzern on the Swiss national highway A2/A3, take the Liestal exit. Follow the signs for Liestal.

After approximately 3 kilometers, there is a large green building on the right hand side with a red sign «Danfoss» on it. Turn right after that building towards «Frenkendorf/ Füllinsdorf». Turn again into the first road on your right and after about 100 meters turn right again (you actually circle the green building). Pass under the bridge and go straight ahead at the roundabout.

Turn right at the traffic light and follow the road (Hammerstrasse) to its end.

At the end of the street you see a white building. This is Hammerstrasse 49.

For parking, pass the building on its right and turn left after the building.

Please park on the right side of the entrance.
