Participants

Laura Pfeifer-Rossi, Partner, Equity Research Healthcare of Octavian – Moderator

Dario Eklund, CEO of Santhera

Andrew Smith, CFO of Santhera

Shabir Hasham, Vamorolone Global Program Leader of Santhera

Topic of the Call: Looking ahead to 2022

The year 2021 was a turning point for Santhera following the achievement of key milestones which include:

- Positive 24-/48-week results with lead compound vamorolone in the pivotal VISION-DMD study
- Successful first pre-NDA meeting with the FDA paving the way for a rolling NDA submission for vamorolone in the US, commencing in Q1-2022; European filing planned for Q2-2022
- Financing secured through to mid-2022; seeking authorization for additional capital to enable continued pipeline development and preparations for the commercialization of vamorolone at the forthcoming EGM on December 15, 2021

The moderated session will touch on the past achievements and discuss near-/mid-term plans of the Company to reach upcoming milestones in 2022 and beyond.

About Santhera

Santhera Pharmaceuticals (SIX: SANN) is a Swiss specialty pharmaceutical company focused on the development and commercialization of innovative medicines for rare neuromuscular and pulmonary diseases with high unmet medical need. Santhera has an exclusive license for all indications worldwide to vamorolone, a first-in-class dissociative steroid with novel mode of action, which was investigated in a pivotal study in patients with DMD as an alternative to standard corticosteroids. The clinical stage pipeline also includes lonodelestat to treat cystic fibrosis (CF) and other neutrophilic pulmonary diseases as well as an exploratory gene therapy approach targeting congenital muscular dystrophies. Santhera out-licensed rights to its first approved product, Raxone® (idebenone), outside North America and France for the treatment of Leber's hereditary optic neuropathy (LHON) to Chiesi Group.
